

Drawer cabinet system 550 B with 8 SOFT-CLOSE drawers

Depth 550 mm, width 1022 mm

Application

Particularly suitable for careful storage of delicate, sensitive tools and parts in drawers.

Version

- Solidly welded steel sheet construction
- Tilt-proof due to built-in individual drawer pull-out locking
- The drawers have high-quality Delrin rollers which means that they run quietly
- Drawers with slots all around for inserting compartment rails and dividers
- Perforated steel sheet base (25 mm hole spacing) for fastening and fixing components
- Aluminium grip handles with paper and cellophane strips and lateral cover caps
- For drawer front height 60 mm, the load capacity is 70 kg with evenly distributed load

Advantage

- The damping system brakes the drawer while closing; it closes the drawer smoothly and soundlessly by means of the self-closing mechanism
- Impact load on tools and parts stored in the drawer is reduced to a minimum due to the smooth-closing drawers
- High quality - made in Germany
