

Conical brush X-LOCK

With crimped steel wire

ATORN

Application

For deburring, derusting and removing paint. Workpieces with large surfaces and hard-to-reach areas can be optimally processed.

Version

- With combination chuck – X-LOCK and M14 thread

Advantage

- One tool, compatible with two devices
- Flexible trimming material adapts optimally to the workpiece
- Combines the best properties of a wire cup brush with those of a cylinder wire brush

Art. no.	76089 240
