

Conical brush X-LOCK

with braided steel wire

ATORN[®]

Application

For derusting, paint stripping and deburring of slag, silicates and blue stains on workpieces. Workpieces with large surfaces and hard-to-reach areas can be optimally processed.

Version

- With combination chuck – X-LOCK and M14 thread

Advantage

- One tool, compatible with two devices
- Aggressive cleaning power
- Combines the best properties of a wire cup brush with those of a cylinder wire brush
