

## 787C fibre discs

Ceramic abrasive grain, full resin bond, open coating

**3M**

### Application

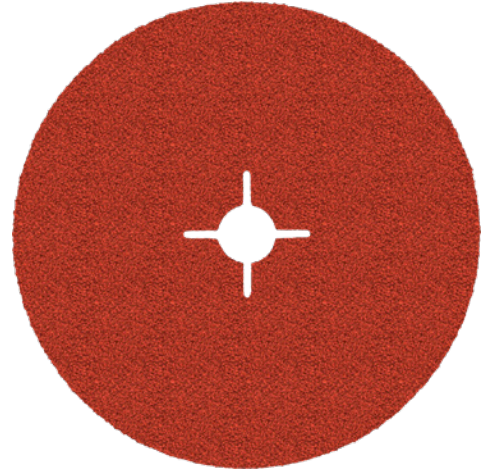

For machining stainless steel welding seams in metalworking shops and sheet metal processing plants.

### Version

- Backing produced from very robust, hornlike vulcanised fibre

### Advantage

- Excellent service life and erosion performance for stainless steels, particularly at low and medium pressures
- Special design ensures a low temperature development in stainless steels known to have poor thermal conductivity

<b>Art. no.</b>	<b>76204 046</b>
<b>Type description</b>	787C
<b>Washer diameter</b>	125 mm
<b>Bore diameter</b>	22.23 mm
<b>Grid size</b>	80+
<b>Number of pieces per packet</b>	25 PCS
<b>Scattering</b>	Close scattering
<b>Backing material</b>	Vulcanised fibre
<b>Material of abrasive medium</b>	Ceramic grain
<b>Material to be processed</b>	Stainless steel
