

Thread-turning inserts, full profile, trapezoidal thread

For female thread machining, right-hand

ATORN

Application

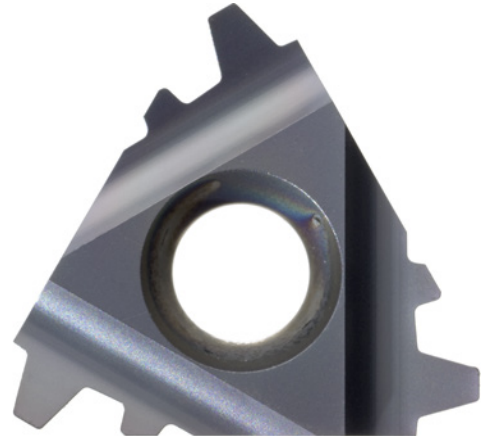

For producing male threads on CNC machines in steel, stainless steel and cast iron material groups at mid-range to high cutting speed.

Version

- Ground thread-turning insert with TiALN coating

Advantage

- Ground thread-turning insert ensures good surface qualities, cutting precision and thread with exact profile reproduction
- High cutting speed and service lives through innovative TiALN coating technology
- High productivity, no de-burring of thread required

Art. no.	17743 426
ISO name	22 IR 5TR
Pitch	5 mm
Machining direction	Right
Carbide type	HC5630
Material to be processed	Steel, Stainless steel, Cast metal
Min./max. Vc in steel	90-120 m/min
Min./max. Vc in stainless steel	80-100 m/min
Min. Vc in cast iron	100 m/min

EAN-Code

4050293248609
