

Abrasive flap disc X-LOCK

with zirconia alumina on cotton polyester fabric

ATORN

Application

Universal grinding, surface grinding, abrasive grinding and edge processing. Ideal for surface grinding on steel and stainless steel

Version

- Robust polyester-cotton blend for ideal wear and stability in the edge insert
- Strong removal performance and effortless operation without lubrication
- Stable fibreglass plate for optimum contact pressure

Advantage

- The fibreglass plate provides an even grinding pattern until the abrasive grain is completely used up.

Art. no.	76084 110
Washer diameter	125 mm
Tool holding device	X-LOCK
Bore diameter	22.23 mm
Max. rotation speed	12250 rpm
Grain size	40
Form	Diagonal
Material of abrasive medium	Zirconium corundum
Number of pieces per packet	10 PCS

EAN-Code

4050293715958
