

HHW-Toolscanner HHW case Toolscanner

Application

The scanners are easy to use:

You determine the distribution and arrangement of the tools in your future hard foam insert and position them within the reference frame on the white surface. Then take a photo. Send a test photo to betriebseinrichtung@hhw.de. After you send your data, your responsible contact person will contact you by telephone or email to discuss the test image. The existing tools from your warehouse inventory are recorded, the handle recess for easier removal is adjusted automatically. The contours of the photographed objects are digitized and your hard foam insert is created - your product will be delivered within 10 working days of your order.

Execution

- LED panel 600 x 600 mm incl. transformer and socket
- Lid with hard foam insert for all accessories
- Digital camera with memory card and accessories
- Flight Case with combination lock for the secure transport of reusable items without additional packaging

Advantage

- To design your own custom hard foam inserts, order the fully equipped HHWToolscanner - equipped with everything you need for rapid scanning
- It enables you to create your own custom OPT-I-STORE hard foam inserts for your existing tools directly on your premises

Delivery

- 1x HHW Toolscanner case incl. LED panel
- 1x lid with hard foam insert
- 1x digital camera with memory card and accessories
- 1x flight case with combination lock

Notes

The new paper-based scan template makes it easy and quick to design your custom-made OPT-I-STORE hard foam inserts. It can be requested free of charge.

Technical Data

Product number	1081200 101
Type	Purchase variant
Height	130 mm
Width	620 mm
Depth	620 mm
Weight	15 kg
Manufacturer Part Number	02-99-0001
EAN Code	4024496113736
Commodity Code	85258100
