

ESD cart Electrically conductive design

Execution

- ESD cart with sheet steel base plate, robust welded construction, electrically conductive, powder-coated
- ESD safety handles
- Wheels with ESD solid rubber tyres on plastic rims, hubs with roller bearings

Advantage

- Steel sheet toe plate bolts on, meaning it can be replaced

Technical Data

| | |
|--------------------------|----------------------|
| Product number | 1081311 102 |
| Material | Steel pipe |
| Material of wheel | Elastic solid rubber |
| Wheel diameter | 260 mm |
| Wheel width | 56 mm |
| Surface | Powder-coated |
| Total stop optional | No |
| Manufacturer Part Number | B9125V |
| Commodity Code | 87168000 |
