

Hazardous materials pallet shelves with collection tray Basic rack or add-on rack

Application

For storing hazardous materials in barrels on Euro pallets or chemicals pallets.

Execution

Pallet shelves:

- Racks consist of cold-formed profiles, screwed to the bracing on site
- Height-adjustable storage levels in increments of 50 mm
- Zinc-plated support frame
- Longitudinal cross beams plastic-coated in RAL 2001 red orange

Shelf floor tray:

- Collecting tray from 3 mm sheet steel
- Hot-dip galvanised corrosion protection
- Ground clearance 100 mm

Advantage

- Pallet shelves with quality mark RAL-RG 614/2 pallet shelves
- Collection tray according to WHG (German water resources act), test mark according to StawaR (German steel tank guideline)
- The combination of pallet shelves with quality seals and shelf base trays in accordance with the water resources act gives you a flexible, cost-effective storage system that can be expanded at any time

Technical Data

Product number	1085616 202
Collection volume	360 l
Clear width	2700 mm
Tray width	2680 mm
Tray depth	1300 mm
Tray height	285 mm
Shelf load	3510 kg
Bay load	7520 kg
Manufacturer Part Number	R23-3515-D
Commodity Code	94039910
