

Four-way mirror PANORAMA-360

Application

Ideal for forklift traffic. For production halls, warehouses, showrooms, hospitals.

Execution

- Hemispherical safety mirror for indoor use made of acrylic
- Distortion-free 360° visibility
- Extreme wide-angle effect
- Lightweight and impact-proof
- Easy installation: Screw directly onto straight surfaces (e.g. ceilings, beams, supports) or mount freely suspended using an assembly kit

Advantage

- Accelerates the flow of traffic
- Prevents accidents and theft
- No risk of injury
- Recommended by professional associations
- Pays for itself very quickly
