

New Perfect Striper® floor marking device and Floor marking set Traffic Triple

Application

For professional and economic marking indoors and outdoors. Clean-edged markings on parking spaces and traffic routes. Once the markings have dried, apply the sealing varnish using the New Perfect Striper® floor marking device to prolong the service life of the markings.

Execution

- Simplified line width adjustment of 3-10 cm
- Quick conversion to marking stick
- New ergonomic handle for triggering the spray can more easily
- Reinforced, very robust housing
- Adjustable directional arrow to follow the pre-marking
- Storm cuff for accurate markings
- Wide wheels for greater stability and perfectly straight markings
- Holder for 3 spare cans for quick paint availability

Delivery

- 1x New Perfect Striper® floor marking device
- 1x can of floor marking paint Traffic, colour white
- 1x can of floor marking paint Traffic, colour yellow
- 1x can of special sealing varnish Traffic Protector
- Side Striper for marking near to walls
- For pre-marking (essential for straight lines): Chalk line 30 m and 100 g marking powder
- Operating instructions
- Car park plans

Notes

The regulation for working facilities ASR A1.3 requires vehicle boundaries to be clearly marked out on the floor. For other colours, see art. no. 1087041 100-108.
