

Hazardous materials filter attachment Accessories for safety/hazardous materials cabinets

Application

Suitable for the operation of safety/hazardous materials cabinets in accordance with DIN EN 14470-1 in air recirculation mode:

Art. no. 1085575 101-102

Art. no. 1085576 101-102

Art. no. 1085618 101

Execution

- Permanent filtration of exhaust air
- Warning in case of heavy contamination (dust etc.) or filter saturation through hydrocarbons
- Tandem filter technology means further operation of approx. 14 days is possible even after main filter is saturated
- Subsequent replacement of filter necessary to guarantee continued proper operation
- Sheet steel housing, powder-coated, RAL 7035 light grey
- Connection with Schuko plug

Advantage

- No need for complex and expensive exhaust air routing to outdoors

Delivery

Hazardous materials filter attachment GFA Basic, without attachment adapter (art. no. 1085577 102).

Notes

Attachment adapter (art. no. 1085577 102) required in conjunction with the following safety/hazardous materials cabinets:

Art. no. 1085575 101-102

Art. no. 1085576 101-102

Technical Data

Product number	1085577 201
Current consumption	0.2 A
Motor output	0.03 kW
Frequency	50 Hz
Manufacturer Part Number	B80-2880-A
Commodity Code	84149000
