

Horizontal/vertical/rotary indexing tables Type HRT

Execution

- Rotary indexing table made of high-quality Meehanite cast iron, reliable and precise with precision bearings
- Large spindle opening, for clamping longer workpieces
- Quick indexing by means of a locking disc for higher speeds of mass-produced parts
- Hardened and ground worm gear
- Transmission ratio 90:1
- Workbench is scaled to 360°
- 1 complete turn of the hand wheel = 4° of rotation
- Option of indexing via scaled hand wheel with vernier scale

Technical Data

Product number	1029210 101
Point height	80 mm
Indexing part height	72 mm
Lathe chuck diameter	110 mm
Width	118 mm
Length	138 mm
For slot width	11 mm
Morse taper size	MK 2
Weight	9 kg
Manufacturer Part Number	ZE-RT-110
EAN Code	4024496070800
Commodity Code	84663000
