

Extensions

Accessories for synchronous tapping chucks

ATORN

Application

The extensions are used to extend the projection of the synchronous tapping chuck. They are installed as an additional intermediate piece between the chuck and quick-change insert.

Execution

- Extensions for two-piece synchronous quick-change chuck.

Advantage

- High concentricity.

Delivery

1x extension for 2-piece synchronous quick-change chuck.

Notes

(please order quick-change inserts separately).
