

### Horizontal fall protection Lifeline

#### Application

Temporary horizontal safety system during assembly work.

#### Execution

Lifeline is a transportable, very quickly mounted and flexible sling for temporary use. Two people can work safely on this horizontal safety system over a distance of 20 m. The two carabiners of the system are attached to suitable structures such as steel girders, scaffolding frames or concrete columns, for example by means of slings. The structure to be used must be designed for a minimum strength of 6 kN according to the new ordinance certificate. Tested in accordance with EN 795 B.

### Technical Data

Product number	1093009 976
Category	III
EN standard	795-B
Application area of fall protection	Temporary horizontal anchoring device
Number of carabiners	2 PCS
Manufacturer Part Number	L-0329
EAN Code	4030281086406
Commodity Code	63079010
