

Automatic welder's hard hat VarioProtect XXL-W F-TC AIR

Application

Suitable for electrode, MIG/MAG and TIG welding and for sanding

Execution

- Welding in true colours thanks to the True Colour cartridge
- Flip-up system: The cartridge is folded up in the helmet to facilitate looking directly through the transparent lens, for example when sanding
- Highly efficient air filtering and air supply system supplies the welder with clean and filtered air and thus prevents dangerous and harmful particles and welding fumes from being inhaled
- Two blower levels can be selected
- Even air distribution in the helmet
- Li-ion battery with up to 10 hours operating time
- Easy to use, even with welding gloves
- Large field of vision

Delivery

Scope of delivery: Welding helmet, air filter system, rechargeable Li-ion battery 14.8 V/2.6 Ah, battery charger, breathing tube with sleeve 1 m, hip belt and double shoulder strap, black carry bag

Technical Data

Product number	1008708 005
UV and IR protection	Protection level 16 (permanent)
Translucency when not activated	Protection level 4
Commodity Code	65061010
