

Full face mask X-plore® 6300

Execution

The Dräger X-plore® 6300 full face mask meets the highest standards in terms of quality, reliability, comfort and particular safety with respect to breathing and eyes. The mask body, made of robust and skin-friendly EPDM with double sealing frame and triple sealing edge, ensures a secure and comfortable fit for almost all face shapes. The distortion-free visor with 180° wide angle guarantees a large field of vision with a wide all-round view. The intelligent ventilation system with separate inner mask ensures it is kept mist-free. Quick and easy to put on thanks to the convenient five-point strap, which prevents pressure points. Equipped with an Rd40 connection according to EN 148-1. Tested in accordance with EN 136, Class 2.

Delivery

Filter not included.

Notes

Suitable filters with standard Rd40 round thread connection can be found under art. no. 1093009 314-315, 1093009 317 and 1093009 319. Additional filters and accessories deliverable on request.
