

3M™ Versaflo™ powered air respirator starter kit TR-619E

Application

Ready-to-use powered air respirator kit protects against particles such as dust, fog, smoke, organic gases and vapours.

Execution

- The TR-602E powered air unit offers three freely selectable flow rates and a lightweight, balanced design for maximum user comfort
- Controlled airflow provides a constant supply of air even as battery power and particulate filter performance reduces
- The unit has audible, visual and vibrating mechanisms to indicate weak airflow and low battery level
- Intelligent, quick-charging, high-performance lithium-ion battery without memory effect and with practical charge indicator and charger
- Includes an A2P filter with filter cover, ten prefilters, two spark barriers
- BT-30 length-adjustable air hose, easy-clean plastic belt
- Dustproof and splashproof from all directions in accordance with EN 60529 IP 54
- Dustproof and suitable for temporary immersion in water for cleaning in accordance with EN 60529 IP 67 when using cleaning and storage kit art. no. 1093010 415
- Without head part
- Meets EN 12941:1998 + A2:2008 in combination with approved head part, EN 12942:1998 + A2:2008 with approved respirators

Notes

Supplied without head part. Suitable head parts are Versaflo™ M-306, see art. no. 1093010 416 or Versaflo™ M-206, see art. no. 1093010 417
