

Filtering escape devices PARAT® 3200

Execution

The Dräger PARAT® 3200 is a mouthpiece with nose clip and an ABEK15 filter. Thanks to its robust, ergonomic housing, the device is compact and easy to carry. The PARAT® 3200 provides reliable protection against a number of toxic gases and vapours for at least 15 minutes. The escape device is equipped with a belt clip as standard. Approved in accordance with DIN 58647-7.
