

Lanyard Absorbica®-Y MGO

Application
Lanyard

Execution

Double lanyard with integrated, compact shock absorber and MGO connection elements. For movement along a vertical structure, along a horizontal guard rope and for passing between safety devices. Elasticated strands guarantee unrestricted movement. Equipped with 2x MGO connection elements with large snapper opening. Durable fabric cover with an opening system protects the shock absorber from abrasion and splashes and allows regular checks of the shock absorber. Suitable for users between 50 kg and 140 kg. Tested in accordance with EN 355, EN 354, EN 362.

Notes

For suitable anchor side connection elements (carabiners), see art. no. 1093010 224, 1093010 226-227.
