

Lanyard Grillon 2 m

Application

For workplace positioning.

Execution

The GRILLON lanyard is used to position the workplace together with a fall arrester. It allows easy and precise adjustment of the length according to the specific requirements of the workplace to ensure a secure working position. Depending on the configuration, it can be attached either to the central retaining eye or to the two side retaining eyes of the belt. The protective cover protects the rope against abrasion at rough contact points and facilitates the passage of the rope. When the lanyard is attached to the central retaining eye, the protective cover can be removed. Tested in accordance with EN 358, EN 12841 type C.

Notes

Connection element not included. For suitable connection elements (carabiners), see art. no. 1093010 224, 1093010 226-227.

Technical Data

Product number	1093010 221
Category	III
EN standard	358 12841
Application area of fall protection	Workplace positioning
Manufacturer Part Number	L052AA00
EAN Code	3342540821491
Commodity Code	76169990
