

Tool connection

3M™ DBI-SALA® Quick Spins

Execution

3M™ DBI-SALA® Quick Spins enable tool connection in just a few seconds. The Quick Spins are simply pushed onto the tool handle and can be removed at any time. The non-conductive Quick Spins are made of thermoplastic rubber and polyester material (TPU) and guarantee a secure fit. With rotating point on head to prevent confusion, but also allow rotation, for example, with screwdrivers.

Notes

Other sizes deliverable on request.

Technical Data

Product number	1093010 972
Size	S
Diameter	1.5 cm
Material	Thermoplast
Manufacturer Part Number	1500027
Commodity Code	40169997
