

COB LED cordless work lamp UV-FORM

IP
20

Application

UV light is used for leak detection in air-conditioning units with the help of trace elements. It is also suitable for detecting leaks in larger, complex refrigeration/freezing systems, process cooling systems, heat pumps etc.

Execution

- Slim design
- UV-FORM is a cordless LED work lamp with powerful 1.5-W UV light on top
- Flexible lamp head can be swivelled up to 180°
- Strong, integrated magnet
- Robust hook for fastening to work belt

Advantage

- The COB LED light band ensures uniquely powerful and completely uniform illumination, ideal for work lighting
- The most powerful UV lamp on the market
- It is a combination of indispensable universal work light and UV detection, eliminating the need for specific UV detection lamps

Technical Data

Product number	1088004 103
Model	UV-Slim
Min./max. luminous flux	250 / 125 lm
IP protection class	IP 20
Max. battery operating time	5 h
Manufacturer Part Number	03.5408
EAN Code	5708997354087
Commodity Code	85131000
