

Key cabinet with electronic lock

Execution

- Swivelling key list for a clear overview
- The key cabinet can also be opened mechanically in emergencies using the additional built-in cylinder lock (2 numbered keys are supplied)
- Powder-coated sheet steel
- Matt, resistant surface
- Colour: RAL 7035 light grey

Advantage

- Electronic dial lock, easy to program with a user code (3 to 8-digit)
- This means that a large number of users can be granted or refused access at any time without any need for the key
- Adjustable rows of hooks numbered according to capacity

Delivery

Incl. 4 x 1.5V AA batteries, 2 keys and fastening material for wall mounting, does not include key fobs

Notes

Replacement batteries, see art. no. 1039900 303. For key fobs, see art. no. 1086945 101.
