

Key cabinet with mechanical combination lock

Execution

- Compact shape
- Powder-coated sheet steel
- Matt, resistant surface
- Colour: RAL 7035 light grey

Advantage

- Safety lock can be set individually using 3-digit code
- This means that a large number of users can be granted or refused access at any time without any need for the key
- Fixed rows of hooks can be labelled using the included self-adhesive number strips

Delivery

Incl. operating instructions and fastening material for wall mounting, does not include key fobs

Notes

For key fobs, see art. no. 1086945 101.
