Professional character template set
Letters A-Z with insertion mechanism

Application

For marking shipping boxes, wooden boxes, parking spaces or similar using the marking colour and the marking roller.

Execution
- Letter set A-Z (block letters)
- Standardised typeface in accordance with DIN 1451
- Made of very resistant and flexible special sheet metal
- Reusable
- Each character is included once per set

Advantage
- Simple concatenation of several characters through an innovative connector system
- Thanks to individual connectors, it is possible to connect to several lines
- Up to 100 mm in size, the character templates are bent on the bottom side so that they can be easily removed without blurring the colour

Delivery

Letters A to Z and „+" characters

Notes

Always refer to the operating instructions in relation to the possible colours that you use in conjunction with the character templates.
