

Pica Dry deep hole marker Pica-Dry®

Application

Special FOR ALL 2B graphite lead refill marks on almost all materials, whether dry, damp, smooth, rough or dusty.

Execution

- Pica-Dry® Longlife Automatic Pencil
- The push-button acts as a shielded cap and together with the sealing ring on the shaft ensures maximum protection against external influences
- Newly developed internal Power Lock mechanism offers three times more durability over its predecessor
- This minimises the possibility of the lead slipping back when used over an extended period
- LONGLIFE CAP with extra-strong clip and robust sharpener for long-term use
- Optimised design: New grip zones assist pulling out and enhance tactile feel
- The sealing ring ensures a noticeable end point for sealing
- The new grip zone significantly improves alignment
- Shaft with roll stopper

Advantage

- The construction marker for professionals
- The only construction marker with effective dust and moisture protection
- Extremely sustainable as it can be refilled

Notes

For replacement and coloured leads see art. no. 1035448 102-105.
