

3-axis labeller EasyMarker with easyROT80

Application

Labelling system for directly marking iron and non-ferrous metals, plastics, hardened materials and for labelling cylindrical or multi-edge parts.

Execution

- With LED work area lighting
- CNC-controlled needle marker
- Simply enter the labelling data using the keyboard (included)
- The input can be monitored on the LCD display
- Input data - insert workpiece - press start - finished!
- Functions: Fixed text, continuous numbers, automatic date, linear- angular- and circular marking, automatic zero-setting, teach in, variable type height (in increments of 0.1 mm), CE logo marking, mm/inch conversion. Software in three languages

Advantage

- Full software support for path-controlled cylinder marking as well as for timed operation with freely selectable timing angle
- Can also be used as a 2-axis instrument for marking workpieces on table surfaces

Notes

Further labelling systems and flexible identification systems available on request.

Technical Data

Product number	1078430 102
Manufacturer Part Number	EASY0031+EASY0008
EAN Code	4024496111473
Commodity Code	84433210
