

Welding attachment

Execution

- Work according to the suction or injector principle
- Are generally operated with an oxygen pressure of 2.5 bar and an acetylene pressure of 0.5 to 1 bar
- Designed to generally prevent flashback
- Marked in accordance with BGV D1 (VBG 15)
- Hammered nozzles

Technical Data

Product number	1070603 203
Suitable for min./max. material thickness	14-19 mm
Suitable for max. material thickness	19 mm
Manufacturer Part Number	116.07
EAN Code	4024496106042
Commodity Code	84681000
