

Metal angle clamp With knob handle

Application

Versatile, suitable for precise clamping and alignment work. For holding, securing and aligning in the right angle of tubes and profiles of varying thickness.

Execution

- With 2 slotted holes for clamping on a machine table
- Galvanised metal design
- Copper-plated spindle
- Jaws and basic body made of high-grade cast iron

Advantage

- Copper-plated spindle prevents adhesion of welding beads

Technical Data

Product number	1070803 101
Max. clamping width	90 mm
Diameter	60 mm
Jaws height	35 mm
Jaws length	110 mm
Manufacturer Part Number	WSM9
EAN Code	4008158016832
Commodity Code	82057000
