

Welding electrodes FINCORD S

Application

For unalloyed structural steels St 33 to St 37, St 44, boiler plates H I, H II, tube steels to St 37.4, St 35.8, StE 210.7, cast steel GS-38 to GS-45.

Execution

- EN 499, E 421 RR 12, DIN 1913, E 5121 RR6
- Thick rutile coating
- Broad range of uses
- Excellent welding performance
- Well-suited for tacking work

Advantage

- Extremely easy to handle; also suitable for inexperienced welders, very smooth seams
- Simple ignition and re-ignition; smooth, stable arc

Notes

Approved in accordance with TÜV, DB.

Technical Data

Product number	1070686 203
Manufacturer Part Number	FINCORD-S 3,2X350
Commodity Code	83111000
