

Clamping element TW for welding tables

Application

For working on welding tables with 28 mm holes.

Execution

- High-quality 2-component handle
- Knob handle with rounded ends
- Each with smooth-running trapezoidal threaded spindle
- Pressure plate can be replaced without tools
- Precise, individual clamping
- Heat-treated profile and sliding bar for flexible and elastic clamping
- Infinitely adjustable overhang

Technical Data

Product number	1070760 102
Suitable for hole diameter	28 mm
Design of the handle	Clamp handle
Type	TW28-30-14-2K
Manufacturer Part Number	TW28-30-14-2K
EAN Code	4008158036861
Commodity Code	82057000
