

### Crate pliers

For easy opening of crate locks.

#### Application

For easy opening of crates without risk of injury.

#### Execution

- Pushing the handles together raises the spring out of the stop cam groove
- When used on a bolt locking mechanism, the jaws will pull the bolt out of the groove of the retaining cam when the handles are pressed together
- Optimised lever transmission
- Ergonomically designed 2-component handle

#### Advantage

- Using these pliers saves time, increases safety and presents no risk of injury
