

Pipe cutting and chamfering machine GF-4

Application

Cutting and chamfering of pipes made of high-alloy steel (stainless steel), low-alloy and unalloyed steel, cast materials, non-ferrous metals and plastics in seconds using the „planetary cutting“ procedure.

Execution

- Transportable machine with single-phase AC motor, 200-240 V, 50/60 Hz, 1,800 W
- Protection class II
- Infinitely variable electronic speed control with restart lock
- Includes accessories required to operate the machine

Advantage

- Right-angled, burr-free and cold machining process
- Optimum preparation for automated welding process
- Robust design with powerful drive
- Unique, automatically guided immersion process
- High efficiency, increased productivity and long tool life

Delivery

Includes 1 saw blade and 1 tube of lubricating gel.

Notes

Aluminium version available on request.

Technical Data

Product number	1061660 102
Manufacturer Part Number	790.142.001
EAN Code	4048133001491
Commodity Code	84615011
