

### Brush-type vacuum cleaner

**KÄRCHER**

#### Application

From shops, hotels and restaurants to offices, public buildings and showrooms: Our CV 38/2 Adv brush-type vacuum cleaner with extra-large working width is the perfect choice for quickly and efficiently cleaning large, carpeted areas. Its low weight and ergonomic handle ensure comfortable and fatigue-free working over long periods. Accessories integrated directly on the device extend the range of applications to include fast and efficient cleaning of edges or small recesses, while an optical brush adjustment aid allows precise adjustment of the brush to the carpet pile height. A patented removal system enables virtually dust-free replacement of the ultra-tough fleece filter bags. Other time-saving features of the CV 38/2 Adv, such as tool-free brush replacement or the quick-change system for the Highflex power cable, which requires no prior knowledge, round off the well thought-out design.

#### Execution

- Power cable quick-change system: Power cable can be replaced without prior knowledge, saving time and money
- Tool-free brush replacement: Brush roller can be changed in seconds without tools
- Signal lamp: The signal lamp indicates when the brush roller setting should be changed to ensure optimal cleaning.

#### Delivery

- Crevice nozzle
- Upholstery nozzle
- Removable suction tube
- Stretch suction hose
- Fleece filter bag
- Filter condition indicator
- Height-adjustable handle
- Brush roller

### Technical Data

Product number	1092715 102
Dust bag capacity	5.5 l
Cable length	12 m
Length x width x height	370 x 390 x 1215 mm
Energy efficiency class	A
Colour	Anthracite
Manufacturer Part Number	CV 38/2 ADV
Commodity Code	85081100
