

Dual compressed air maintenance unit

**Execution**

- Consisting of filter pressure regulator and pneumatic lubricator

Advantage

- Correct pressure settings and atomised oil ensure a long service life for various pneumatic tools and controls.

Delivery

Incl. plastic container with drain valve for filter and plastic container for lubricator.

Technical Data

Product number	1092423 202
Connection thread	G 3/8 inch
Container volume, filter	28 cm ³
Container volume, lubricator	40 cm ³
Width x height	104 x 243 mm
Type	FU 602-10
Manufacturer Part Number	FU 602-10
Commodity Code	84811005
