

Liquid and swarf vacuum cleaner

Application

For particularly demanding power tool cleaning in professional metalworking and metal processing.

For vacuuming liquids, swarf and other solid particles such as cooling lubricants, liquids with a high oil content and coarse metal chips.

Execution

- Ergonomic head design with cable hook
- Swarf basket for separate disposal of metal chips
- Ball valve for draining fluids
- Float for safe stopping when the working container is full
- Special seal between the head and the container, resistant to oil and chemical residues
- Side hose connection for improved suction power
- Metallic hose connection on the container with locking mechanism prevents unwanted loosening of the hose during cleaning
- Output control via three separate motors, each with on/off switch

Advantage

- Stainless steel tank is impervious to sharp-edged metal chips
- Oil-resistant suction hose withstands high loads and any kind of twisting
- Low-noise operation, vacuum motors with noise filter

Delivery

- Steel suction tube
- Floor nozzle with replaceable inserts
- Flat nozzle
- 4 m suction hose, dia. 38 mm
- Swarf basket

Technical Data

Product number	1092233 101
Power input	3300 W
Max. air delivery volume	10750 l/min
Underpressure	245 mbar
Bin capacity	78 l
Hose length	4 m
Inner hose diameter	38 mm
Length x width x height	635 x 580 x 1030 mm
Weight	34 kg
Manufacturer Part Number	7003380
Commodity Code	84798300
