

Universal knuckle joint presses

Execution

- 360° adjustable hand lever
- Stable cast-iron body with very precise prism guide with no play at the press ram
- The crimping head is quick and easy to position using a hand crank
- Gripping is achieved by means of several hexagonal bolts through the complete press body
- Large table clamping surface with T-slots

Notes

Knuckle joint presses with higher pressure performance and pneumatic drive deliverable on request.

Technical Data

Product number	1072030 201
Manufacturer Part Number	A 1001.001
EAN Code	4024496107018
Commodity Code	84625900
