

### Twist drill sanding machines and accessories

**DAREX**

#### Application

Complies with the requirements for trade and industry.

#### Execution

- Positively driven sanding process
- CBN grinding wheel (DIA optional)
- Precise re-grinding of HSS and solid carbide spiral drills
- Variable picking out in one clamping operation
- Adjustable tip angle and removal rate
- Infinitely variable relief grinding
- Stepless chuck for all diameters; no change of collet chuck required

#### Advantage

- The DAREX V-391 impresses with its ease of use.
- Economic and fast solution for re-grinding of twist drills
- Positively guided sanding process for excellent cone surface finish including picking out

### Technical Data

Product number	1090027 001
Min./max. sanding area	3-19 mm
Min./max. point angle	118-140 Degree
Manufacturer Part Number	DAREX V-391
EAN Code	0662949038737
Commodity Code	84602990
