

Lever gauge probe Series 513

Mitutoyo

Application

For measuring deviations in concentricity, axial run-out, parallelism and flatness. For centring shafts and boreholes and aligning workpieces.

Execution

- Glare-free, flat dial face for easy reading
- The improved placement of the O-ring seal enables easy rotation of the dial face whilst protecting the scale from the ingress of dust and oil
- Multi-layer coating on dial face
- Accuracy in accordance with factory standard

Delivery

includes clamping shank with dia. 8 mm and box

Technical Data

Product number	1001360 721
Connection thread	M1.7
Material of measuring ball	Carbide
Manufacturer Part Number	513-465-10E
