Robust (digital) humidity temperature sensor
for temperatures up to +180°C, wired

Application

For measurements of industrial exhausts, in bulk materials and in climate-controlled cabinets: The robust humidity temperature probe enables you to measure relative humidity and air temperature up to +180°C (with the appropriate measuring instrument).

Execution

- Clearly structured measurement menu for long-term measurements and for parallel determination of relative humidity and air temperature in industrial exhausts, in bulk materials and in climate-controlled cabinets
- Calculation of wet bulb temperature, dew point and absolute humidity
- Suitable for measurements in harsh ambient conditions up to +180°C

Delivery

Robust humidity temperature probe with fixed cable (cable length 1.4 m) and calibration log.

Technical Data

Product number	1033966 202
Min./max. temperature measuring range	-20 to +180 °C
Manufacturer Part Number	0636 9775
EAN Code	4029547019012
Commodity Code	90258040
