

(Digital) heating wire sensor incl. wired temperature sensor

Application

For measurements in the ventilation duct: The heating wire sensor allows you to measure flow speed, volume flow air temperature (with the appropriate measuring instrument).

Execution

- Clearly structured measurement menu for volume flow and parallel determination of flow velocity, volume flow and air temperature
- Automatic absolute pressure compensation provides accurate measurement results
- Integrated telescope up to 0.85 m with scaling allows convenient measurement at any cross-section

Delivery

Heating wire sensor (dia. 9 mm) with fixed cable (length 1.7 m) incl. temperature sensor, telescopic (extendable to 0.85 m) and calibration log.

Technical Data

Product number	1033966 201
Min./max. temperature measuring range	-20 to +70 °C
Manufacturer Part Number	0635 1032
EAN Code	4029547018848
Commodity Code	90268020
