

Cordless device tester ST 710

BENNING

Application

For testing electrical devices/work equipment, such as power tools, motorised devices, lights, extension leads and household appliances in accordance with VDE 0701-0702, BGV A3.

Execution

- Simple (operation using three buttons)
- Fast (full test in less than 10 seconds)
- Mobile (test can be carried out without mains power, battery capacity for 2,500 test samples)
- Automatic test procedure for class I, II and III devices
- Extension cables and device connection cables with C13 plug and good/bad indicator
- Limit values are preset in accordance with the VDE standard

Measurements:

- Protective conductor (200 mA test current)
- Insulation resistance (500 V test voltage)
- Protective conductor/touch current (alternative leakage current procedure)
- Conductor test including RPE, RISO, continuity/short-circuit testing of the phase/neutral conductor
- Voltage at external Schuko socket (L-N, L-PE, N-PE)
- Three-phase samples can be tested using an optional measuring adapter.

Delivery

- Device tester
- Bag
- Test lead with alligator clip
- C13 lead
- Batteries (6 x 1.5 V AA IEC LR6)

Notes

Test stickers (300 pieces), measuring adapter 16 A/32 A CEE Schuko socket for three-phase test samples available on request. For replacement batteries, see art. no. 1039900 303.

Technical Data

Product number	1062440 101
Manufacturer Part Number	050308
EAN Code	4014650503084
Commodity Code	90303320
