

Application

Suitable for the following materials: Structural steel, stainless steel, aluminium.

Execution

- The M42 bimetal band saw for pipes, profiles and small cross-sections
- Optimum for single-, layer- and bundle cuts

Advantage

- High resistance to tooth breakage due to patented AMADA PROTECTOR tooth and therefore maximum profitability when sawing various materials
- By reinforcing the back of the tooth, tooth overloads are reduced and at the same time the patented offset pattern ensures a low-vibration run and thus better surfaces and less noise

Notes

Recommended application: Optimum 10–30 teeth in the material (not less than 3 and not more than 40 teeth).

Technical Data

Product number	1040715 132
Length	2910 mm
Number of teeth per inch	5/7
Manufacturer Part Number	E352709005702910
Commodity Code	82022000
