

Grinding concentrate

Application

For grinding a wide variety of materials. Mixing ratio 1:40 (2.5%). Also suitable as compressed water additive, as additional corrosion protection and as a stabilising agent.

Execution

- Synthetic grinding concentrate with high corrosion protection and EP additives for the most demanding applications
- The emulsion is colourless (transparent) and thus meets the requirements of clear-view grinding
- Increased service life compared to conventional coolants and machining agents
- Very good skin compatibility — pH value at 2.5 % approx. 8.5
- High corrosion protection even at low concentrations (from 2%)

Notes

Non-hazardous material, free from chlorine, nitrite and formaldehyde. Refractometer value: 2.1. Water hazard class 2. No release agents present.

Technical Data

Product number	1019308 102
Contents	20 l
Container	Canister
Manufacturer Part Number	1019308102
EAN Code	4024496054657
Commodity Code	34031980
